MEMORANDUM

The court has not held even ONE hearing in any of the cases it is intimidating are "patently" vexatious. This does not make sense. The Judge has not heard plaintiff and still harshly critiques and abuses plaintiff's good name. This is not just. Shall we have a hearing or does the court deny to hear the case? I have done nothing wrong, and do my best to comport with the judiciary. I do not agree with the statements coming from the court and am alarmed and concerned with the state of justice in the District Court and will pursue justice in all areas. I think it is so hasty as to inspire curiosity as to how a plaintiff like myself could go so long without ACTUALLY BEING HEARD. That is testimony in and of itself. And I will not ever back down on any of these lawsuits without grounds. The court has no grounds for such harshness with plaintiff who has sacrificed EVERYTHING for the good of the people. Plaintiff has shown nothing but good faith and will stand by everything he has said, done and filed and will not be silent in the face of injustice!
